NUVITA BV is not liable or can be held responsible for any test results which result from products mixed and processed based on formula specified and provided by the customer. The customer remains at all times responsible for the above when placing an order.

NUVITA BV recommends re-packing (into the final consumer packages) products directly after delivery. Also for any supplied dosage recommendations to 3rd parties, product description on consumer packages or improper use by 3rd parties.

NUVITA BV cannot be held responsible for any ageing symptoms or any other loss in quality of products stored in the delivered bulk-bags. Rights cannot be derived from the stated expiry date. Also for any possible reaction between any form or type of ingredients (even if in capsule) or any decrease of the amount of active ingredients during the storage of products by the customer.

The final products of NUVITA BV never contain more biological-, chemical- or physical contaminants than legally permitted by law for foodsupplements in the EU.

European regulation setting maximal levels Heavy Metals as follows: Lead: < 3.0 ppm, Cadmium: < 1.0 ppm (<3.0 ppm in seaweed products), Mercury: <0.1 ppm, total Heavy Metals: max 20 ppm.

Microbiology: Salmonella: absent/25g, E.Coli: absent/1g, Y&M: max. 100cfu/g, TPC tablet: max.1000cfu/g. TPC cap: max. 20.000cfu/g. No physical contaminants present.
